

# FISHER VILLAGE PROFILE

Sustainable Coastal & Marine Fisheries Project (SCMFP)

Department of Fisheries, Ministry of Fisheries and livestock

F E B R U A R Y 2 0 2 3

# INTRODUCTION

Welcome to this publication showcasing the fisher villages of Bangladesh's southeast, central, and western coastal regions. This fisher village profile has been developed as part of the Sustainable Coastal and Marine Fisheries Project (SCMFP) of the Department of Fisheries (DoF), Ministry of Fisheries and Livestock (MoFL), with the aim of promoting sustainable development in fisher communities. The Social Development Foundation (SDF) is implementing the Community Empowerment and Livelihoods Transformation component of the project in 450 villages across three coastal divisions - Chattogram, Barishal, and Khulna - benefiting a total of 52,317 households. The project uses a community-driven development (CDD) approach and provides investment and financial support to strengthen community fisheries management and transform livelihoods in poor fishing communities by reducing their dependence on fishing. Through this approach, the project aims to empower fisher communities to take control of their own development and build a more sustainable future for themselves and their environment. We hope that this publication will inspire readers to learn more about these communities and to support initiatives that empower them to build a brighter future for themselves and their environment.

The major activities are as follows:

- Establishment of Community Institutions in village
- Strengthening capacity of fisher's communities to run institutions
- Strengthening fisheries co-management in village and upazila level through implementation of local level Fisheries Management Development Plan (FMDP)
- Providing financial supports to fishers' communities to promote alternative livelihoods opportunities outside of capturing fish
- Initiation and implementation of appropriate fishing interventions at village level to reduce post-harvest lost and IUU fishing
- Establishment of 100 Model Fishing Villages out of 450 villages under component-3, SCMFP
- Building/strengthening producer organizations in fishing communities
- Establishing Fishers' Federation for sustainability of the village institutions and co-management activities
- Providing grant support to business development for livelihood diversification
- Facilitation of market linkages with producers in fishing communities prioritizing MFVs
- Facilitating large-scale skill development and vocational training and providing opportunities for youth and fishermen in fishing households to access wage employment.

To support these activities there have been eight committees and institutions established as part of Ecosystem Based Sustainable Marine Fisheries Management:

- 1 Village Fisheries Co-Management Committees (VFCC)
- 2 Fishers Village Samiti (FVS)
- 3 Fishers' Village Credit Organization (FVCO)
- 4 Social Audit Committee (SAC)
- 5 Procurement Committee (PC)
- 6 Finance Committee
- 7 Sub-Project Committee (SPC)
- 8 Disaster Management Committee (DMC)

# PROJECT AREA

This publication will showcase fisher villages across the three regions covered by the project - southeast, central, and western coastal – spanning 45 Upazilas of 13 districts from three divisions: Chattogram, Khulna, and Barisal.
